EACS HIV Summer School 2016 – Applications are open!

After many years of success with our two EACS Summer courses and having trained about 700 clinicians and researchers, we have decided that the time is now right to combine the two courses into a single course – **EACS HIV Summer School**.

The applications for the EACS HIV Summer School are now open. The EACS HIV Summer School will take place from **September 5 to 9, 2016** in Aix-en-Provence in the South of France.

This new 5-day residential course is designed for clinicians experienced in HIV management who want an update on the current issues in all aspects of HIV Medicine and will be delivered by an experienced faculty. A maximum of 70 participants can be enrolled.

A moderate fee of € 200 is asked to cover registration and accommodation (due after confirmation). A limited number of scholarships is available to low-income countries applicants. The application deadline is March 15, 2016.

For more information and to apply to the course, please check our [webpage](#).
