HIV NEWS

Standard of Care for HIV and Coinfections in Europe

The aim of the Standard of Care for HIV and Coinfections in Europe meeting is the elaboration of a common platform for European standard of care that will provide institutional stakeholders with the instrument to elaborate a strategy at improving care in order to fill the gaps that currently exist among the different European regions.

The online meeting was held on 22 October. Watch the recordings [here](#).
The 3 workshops will take place on:

- **10 November:** *HIV and COVID-19 coinfection*, 15:00 - 16:30 CET
- **17 November:** *Barriers to PrEP delivery*, 10:00 - 12:00 CET
- **27 January:** *HIV and comorbidities - Implementing services for the ageing HIV-infected individual*, 15:00 - 16:30 CET

A wrap up online session will be held in February 2021.

The YING Conference 2020 goes online

YING aims to foster deeper and more frequent exchanges among the new generation of HIV experts bringing a fresh perspective and an innovative approach on HIV across Europe allowing them to share their knowledge and experience. The aim is to bring young investigators together and form new networks.

This year, due to the global pandemic situation, the YING conference will take place online, on **11-12 December 2020**.

A call from WAVE to collaborate on PrEP for women

WAVE would like advocate for an online resource on PrEP and women. From our experience, we know that broaching the topic of HIV risk with women can be challenging and an online platform might provide a useful tool for clinicians, especially for those less confident in discussing HIV. We are looking to work with groups who may already be providing online tools for women seeking PrEP or which can augment healthcare services seeking to support women at risk of HIV acquisition. WAVE could support the development of information for and identification of women who need PrEP, but also can help to address stigma, which can be a major obstacle for seeking PrEP.

Liverpool Masterclass in Antiviral

Pharmacology (LMAP)

The Liverpool Drug Interactions Group are hosting a free online workshop, Liverpool Masterclass in Antiviral Pharmacology (LMAP).

Tailored to healthcare professionals, LMAP aims to improve HIV patient care through educating participants on emerging topics in HIV clinical management, especially in relation to clinical pharmacology, management of drug-drug interactions and complex patient cases.

This workshop will take place on **11 November 2020**.
