Launch of the new EACS Short Clinical Exchange Programme

EACS is pleased to introduce its new programme as part of the Medical Exchange Programme: the **Short Clinical Exchange Programme**. It aims at promoting clinical, research and educational links between centres across Europe and facilitating exchange of models of clinical care in HIV medicine and allied specialities.

The fellows will have the opportunity to visit an EACS Clinical/Research Excellence Center (CREC) specialised in HIV medicine for a period of 2 to 4 weeks. There will also be an opportunity for the CREC to nominate a member of its team for a reciprocal visit for the same period of time and with the same financial rules.

We invite you to have a look at the webpage to have more information on the application process, the eligibility criteria and the list of Clinical/Research Excellence Centers that can be joined.

Applications will be open between mid-November and the end of December.

Stay tuned and do not miss your chance to apply!
