BHIVA, DAIG, EACS, GESIDA & Polish Scientific AIDS Society statement on risk of COVID-19 for people living with HIV (PLWH) is now available in Russian

Были опубликованы данные из Китая, Испании, Германии, Италии и Соединенных Штатов (1-15) о серии случаев инфекции COVID-19 у людей, живущих с ВИЧ: четких доказательств в пользу более высокого показателя инфицирования COVID-19 или отличий в течении заболевания у людей с ВИЧ и без ВИЧ нет. Следует отметить, что в большинство серий случаев включены люди с ВИЧ моложе, чем ВИЧ-негативные госпитализированные пациенты с COVID-19, но показатели сопутствующих заболеваний у них сопоставимы.

PentaTr@ining 2020: 'HIV & other Congenital Infections'

'[PentaTr@ining](#) is an interactive course that continues to develop and evolve in response to the changing needs of children living with HIV and other congenital infections. This year's online course, beginning on **2 November**, will be highly interactive and clinical case-based, designed to kindle engagement and encourage intercommunication among the students and faculty team. It will consist of 6 weekly modules (about 90-120 minutes long), with associated pictures, infographics, tables and figures, references, and links to major PID websites of interest. EACS members can access the course at a discounted Early Bird rate before **25 September 2020**.

Meet the EACS Bureau

Esteban Martinez, Treasurer

Dr Esteban Martinez is Senior Consultant in Infectious Diseases at Hospital Clínic of Barcelona (Spain) and Associate Professor of Medicine at University of Barcelona.

He is exclusively devoted to HIV clinical care and research. He has worked in different educational projects with community-based organisations in Spain and currently holds the positions of President of the Spanish AIDS Study Group

(GESIDA) and Treasurer of European AIDS Clinical Society (EACS). He is a member of the Scientific Board of the International Workshop on Adverse Drug Reactions and Co-morbidities in HIV. His fields of interests span antiretroviral therapy strategies, toxicity of antiretrovirals, and non-infectious complications and co-morbidities in HIV-positive adults.
